Standards-Based Assessment [SBA]

SBA, a criterion-referenced test, developed locally to measure students' knowledge of the standards and benchmarks in Chamorro Carolinian Language Heritage Studies and NMI History. Students performance are compared against the body of knowledge they're supposed to learn. SBA is reported in four performance levels: Beginning, Developing, Proficient, and Advanced

WIDA ACCESS for English Language Learners 2.0

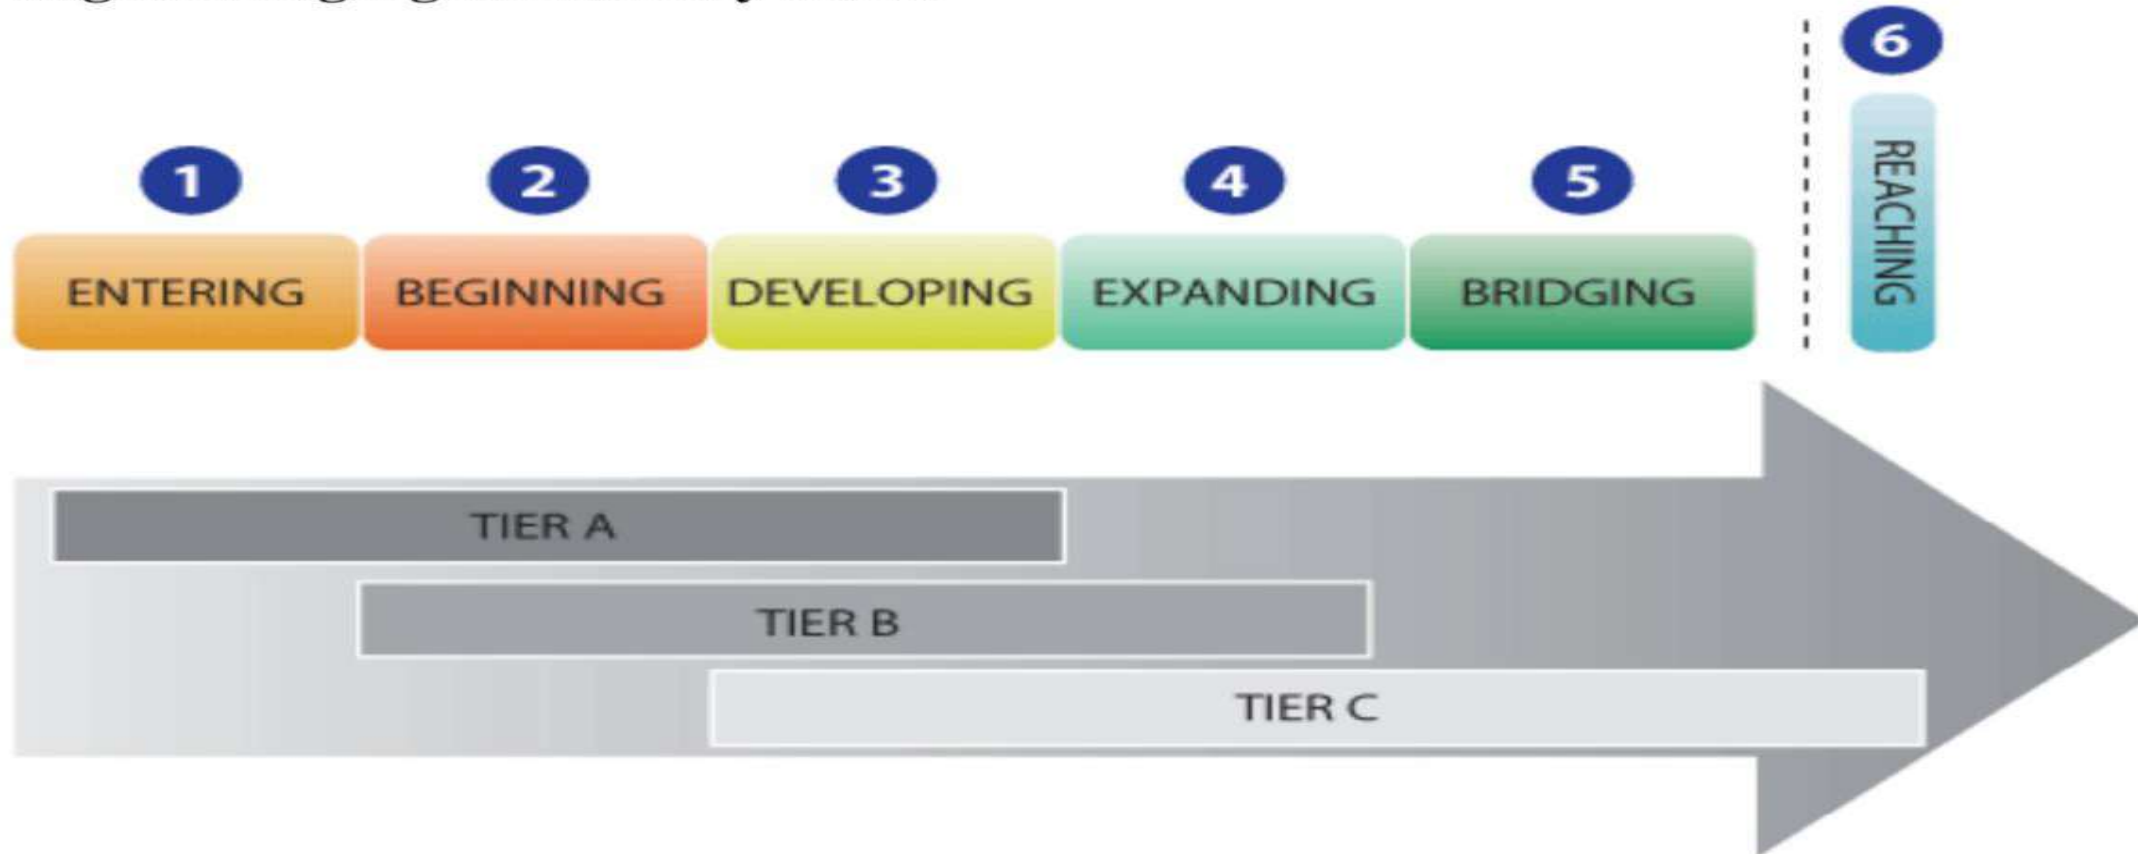

WIDA ACCESS for ELLs 2.0

ACCESS for ELLs 2.0 is a secure large-scale English language proficiency assessment administered to Kindergarten through 12th grade students who have been identified as English language learners (ELLs). It is given annually to monitor students' progress in acquiring academic English.

English Language Proficiency Levels

These levels describe the spectrum of a learner's progression from knowing little to no English to acquiring the English skills necessary to be successful in an English-only mainstream classroom without extra support. Drawn from the Performance Indicators, the ACCESS for ELLs[®] incorporates all five standards and English language proficiency levels in sections that correspond to the four domains. Within each grade-level cluster (except Kindergarten), ACCESS for ELLs consists of three forms: Tier A (beginning), Tier B (intermediate), and Tier C (advanced). This keeps the test shorter and more appropriately targets each student's range of language skills.

Alternate Assessment

Alternate assessments allow students with significant cognitive disabilities to be assessed on alternate standards that are aligned with common core state standards. Alternate assessments are designed for testing students who are unable to take the regular assessments, even when testing accommodations are provided
