FOR YOUR INFORMATION

About the Program

The Instructional Technology (IT) Program in the Office of Student and Support Services (SSS) has established a Distance Education (DE) Program with the goal of converting existing secondary courses to an *asynchronous online mode*. We believe that this online course delivery format will best serve the increasingly diverse learning needs of students enrolled in one of our secondary campuses.

The online course delivery format will benefit CNMI Public School System (PSS) students in meeting graduation requirements through high quality, standards-aligned, internet-delivered secondary courses. This online course delivery format helps to close the gap between the way students learn and the way students live. The format will equip our students to thrive in the complex life and work environment of the 21st Century. Additionally, providing the asynchronous online course format will assist to maximize student success, improve learning outcomes, and expand learning opportunities without being limited by time, space, scheduling conflicts and the funding issues faced at PSS. The DE program will address traditional student achievement issues, ensure 21st century teaching/learning in a digital world, and support 21st century staff, as well as, provide options for equal access of courses to students from all our secondary schools.

Only courses listed in the CNMI PSS Course catalog for graduation requirements and elective courses that have been approved by the Associate Commissioner of Instructional Support (ACIS) will be considered. Courses proposed for conversion must have enrollments that justify their redesign to the online mode and the concomitant investment of resources and personnel time. The DE Program will provide a pay differential per semester to the eTeacher and/or program for course development and support. The eTeacher and department commit to offering the course during either a fall, spring or summer semester. The course must be completely developed and adhere to iNACOL's Online Course Quality Guidelines before it is offered.

Proposed Pay Differential

The DE Program will provide an after school pay differential per credit year of up to \$6,750 (or \$225 per student per year; equivalent to \$112.50 per student per semester) for courses being offered with the minimum 10 students, maximum of 30 students unless otherwise agreed upon. This is subject to change, approval, or budget. Provided on time submission of documents (e.g. syllabus, course evaluations and quarterly grade reports), pay differentials are to be released by the PSS Finance office on regular PSS paydays.

When am I employed exactly?

If your application process continues to proceed favorably you will submit an eTeacher Memorandum of Agreement. You are to sign it, keep a copy and return the original. However, teaching the online course you applied for is conditioned upon: approval of online course syllabus, approval of online course development, and meeting the minimum online student enrollment.

What about licensing?

You must have a valid CNMI State Board of Education Teaching Certificate for the duration of the online semester/year. You may contact Ms. Jessica Estrada at (670) 237-3027 or by e-mail at boe.certification@cnmipss.org if you have any questions.
