

CNMI PSS

AUGUST ATTENDANCE REPORT

CHRONIC ABSENTEEISM

What is it?

Chronic absenteeism is when a student is absent for more than 10% of the School Year. A CNMI PSS school year is made up of 180 days, therefore a student who misses 18 school days is considered chronically absent regardless of whether these absences are excused or unexcused.

Why does it matter?

Frequent absences, whether they are excused or not, can impact your child's academic, social and emotional growth. Too many missed school days leads to learning loss and can make it difficult for your child to come back to school.

What can I do?

Communicate with your child's school regarding absences and follow their procedures for make up work. Ask for help if you need support for your child.

TRUANCY:

What is it?

For schools on Semester Schedules, truancy is when a student is absent for 10 or more days without an explanation or notification to the school. All elementary schools and middle schools with the exception of Dandan Middle School and Chacha Oceanview Middle Schools are on Semester Schedules. For schools on Block Schedules, truancy is when a student is absent for 5 or more days without an explanation or notification to the school. All high schools, including DMS and COVMS are on Block Schedules.

Why does it matter?

Frequent absences, whether they are excused or not, can impact your child's academic, social and emotional growth. Too many missed school days leads to learning loss and can make it difficult for your child to come back to school. **Under the Juvenile Justice Act of 2008, truancy is a status offense that is not punishable by detention unless the juvenile is a habitual status offender.**

What can I do?

Communicate with your child's school regarding absences and follow their procedures for make up work. Ask for help if you need support for your child.

AUGUST ATTENDANCE REPORT

AVERAGE DAILY ATTENDANCE

What is it?

Average Daily Attendance is the average number of students who are present on any given school day. It is calculated by taking the total number of students present and dividing it by the number of school days in that timeframe.

Why does it matter?

Attendance in school is a leading indicator of student success. The more time your child spends in class, the greater their chance of graduating on time. Your school receives federal funds to help increase student attendance. **The CNMI PSS Attendance Goal for School Year 2025-26 is 95%.**

What can I do?

Encourage your child to go to school by building strong connections with their teachers and communicating with your child and school regarding any issues that might affect attendance. Reach out for support when you need it.
